

Institutional Distinctiveness 2019-20

As per the vision of the institution the thrust area is all round development of the student. All round development includes healthy mind, healthy body and sustenance in society. With this vision various activities are organised by the institution throughout the year.

1. **Developing employability skills among Students:** To make the students understand the importance of employability skills, the institutions contrives different activities throughout the year. The conferences helped the students to realise, that getting familiar to various employability skills is essential. The institution also organised various workshops on personality development, constructivism and use of ICT. The workshops helped the students to groom their personality, wherein more emphasise was given on communicative skill, creative thinking, self - confidence, team work etc. Workshop on constructivism, made the students familiarize with the skills needed to work in the constructivist classroom. ICT workshop made the students techno savvy, as it gave them the space to enhance their ICT skills, which is the need of 21st century classroom. Employability skills enhancement courses were also introduced for the particular year, which developed confidence in the students. The institution has career guidance and competitive exam cell, through which the students are oriented and guided related to various competitive exams which are the gateway for entering the professional career. Due to pandemic, a paradigm shift in teaching- learning process was noticed, considering the need of the hour, the institution organised a national webinar. The webinar emphasised on use of ICT skills in teaching – learning and evaluation.
2. **Health and Wellbeing for Students:** The institute did not only emphasised on academics but also focused on the physical and mental health of the students. To achieve good physical and mental health, the institute arranged activities like guest lectures on health, sessions on physical exercise, suryanamaskar, yoga and zumba, intercollegiate sports competition. The health lectures made the students realise the importance of having a healthy body. It also made the students realise the importance of healthy diet and leading a healthy lifestyle. Students were made aware about importance of self – examination. The activities helped the students to improve their stamina and concentration. Intercollegiate sport competition developed sportsmanship among students.

Hence, the institution encourages all round development of the students, for enhancing the student's skill, thus representing and reflecting the vision of the institution.
