The college has a library committee.

The library committee takes a regular review of purchases and maintenance issues concerned with the library. Faculty incharge assists the librarian for optimum use. The library committee, with the faculty members and the teacher trainees, prepares a list of recommended books and reference books to be purchased. The Principal proposes the same to the LMC for sanction. The faculty provides the list of books required by them related to their subjects. The book dealers visit the college along with a brochure of newly published books. The experts from the University of Pune and other Colleges of Education visit the library and give their valuable suggestions. The library advisory committee takes a note of the suggestions given by them for further improvement. The librarian informs the staff and the students about the new arrivals and makes it available to them.

Is your library computerized? If yes, give details.

Yes, Library Automation Status Institution's management had sanctioned the purchase of advanced and comprehensive library management software namely "VRIDDHI Software " which generates barcode for each library member on their ID card. Library membership is allotted to students or employees and a

database is maintained. Book circulation and access is made easy using barcode. Each library member can access his/her library account using his/her barcode printed on ID card. This module is supported with OPAC tool and digital library. We have reduced the need of traditional catalogue system through digitization. All the libraries in our campus are linked together with one common database. Students can search any library material depending on author, publisher, keywords, synopsis etc. A separate Accession Register for both Book & Periodicals is managed. Three types of member groups are provided such as Student, Employee & Other. Depending on the type of membership, different privileges, rights & restrictions for book circulation, different fine & due structure can be set as per the need. All library work like Accessioning, Serial Control & Circulation is included in software. After accessioning, the books or periodicals are ready for circulation. Librarian can define number of reservation & reservation period of each member group. Daily report on reserve materials & expired reservation list can be obtained from the software. During circulation the software takes care of Reservation, Book Issuing Limit, and Renewal Limit & Fine for late receipt or loss of book. Accession Register, Membership Register, book Issue Register, Reservation Register, Binding Register, Fine & Write-Off Registers can be printed. Book Card- Title wise-Author wise-Language wise subject wise Class no. wise & Budget wise are available. The "Statistical Information Report" lets one understand complete status of the library.
